Description

One-of-a-Kind Natural Fancy Color Diamond Four-Petal Flower Ring

GIA Certified

Four petals. Four colors. One ring that could only exist once.

The Center Stone

A round, brilliant white diamond sits at the heart of the bloom — colorless, classic, and deliberately chosen to let each surrounding petal speak for itself.

The Fancy Color Diamond Petals

Four GIA-certified natural fancy color pear-shaped diamonds, each individually prong-set in yellow gold, form the petals of this floral composition:

- 0.32ct Fancy Deep Yellow | VS2 — a rich, saturated golden petal with exceptional depth of color

- 0.33ct Fancy Brownish Greenish Yellow | VS2 — an earthy, complex tone found nowhere else in nature

- 0.33ct Very Light Pinkish Brown | SI1 — delicate, understated, with a warmth that whispers rather than shouts

- 0.35ct Fancy Deep Pinkish Brown | SI1 — the rarest of the four, a deep rosy earth tone that anchors the palette

Each petal is individually haloed in white round brilliant diamonds, set in white gold, creating four distinct blooms that together form one cohesive floral statement.

The Setting

White gold throughout — the cool, clean metal allowing the warm spectrum of fancy color to dominate entirely. Diamond pavé continues down the shank, ensuring the ring commands attention from every angle.

Why This Ring Exists Once

Four natural fancy color diamonds of complementary yet distinct hues, each GIA certified, assembled as a single floral composition — this is not a design that can be sourced again. The stones dictated the ring. The ring exists because these four stones found each other.

GIA certificates available. Private viewing by appointment.
