Description

One-of-a-Kind 6-Petal Natural Fancy Color Diamond Flower Ring

GIA Certified | White Gold

Nature spent billions of years creating these six colors. This ring unites them in a single bloom.

The Center Stone

A vivid Fancy Orange round brilliant diamond anchors the composition in a blaze of warm fire — one of the rarest color expressions in the diamond world, set in yellow gold to maximize its intensity.

The Six GIA-Certified Petal Diamonds

Six natural fancy color pear-shaped diamonds radiate outward, each individually haloed in white round brilliant diamonds, each prong-set in yellow gold:

- 0.31ct Fancy Orange Yellow | SI2 — warm, sun-soaked, and luminous

- 0.29ct Fancy Intense Orange Yellow | VS2 — deeper, richer, the most saturated of the yellows

- 0.28ct Fancy Deep Brownish Greenish Yellow | VS2 — an earthy complexity rarely seen in a single stone

- 0.23ct Fancy Deep Grayish Yellowish Green | VVS2 — cool and mysterious, a collector's color

- 0.31ct Fancy Brown Pink | I2 — soft blush warmth that anchors the palette

- 0.30ct Fancy Brown Pink | I2 — its twin petal, creating perfect floral symmetry

The Setting

White gold throughout — its cool neutrality stepping aside entirely so this extraordinary spectrum of natural color can own the room. Diamond pavé continues down the shank, brilliant from every angle.

Why This Ring Exists Once

Six individually GIA-certified natural fancy color diamonds, assembled as a matched floral composition — this convergence of color cannot be sourced again. Each stone is a geological event. Together, they are a garden that exists nowhere else on earth.

Six GIA certificates available. Private viewing by appointment.

Comments :

GIA Certified Graduate Gemologist Physically checked and verified all Diamonds and gemstones in this Fine Jewelry the piece is 100% Natural.
