Description

One-of-a-Kind 0.42ct Natural Pink Cushion Diamond Engagement Ring

GIA Certified | White Gold

Understated. Rare. Unmistakably pink.

The Center Stone

A 0.42 carat natural Very Light Pink cushion-cut diamond, GIA certified — its delicate blush sitting at the intersection of rarity and refinement. Set in a rose gold frame that warms and deepens its natural color, this stone rewards the discerning eye that knows what it is looking at.

The Setting

A rose gold halo of natural pink round brilliant diamonds encircles the center intimately, pink amplifying pink in a deliberate layering of color that elevates the cushion's soft hue without overpowering it.

Four white oval diamonds flank the composition at the cardinal points, set in white gold — their colorless brilliance creating a stunning contrast that makes the pink center glow by comparison. The interplay of rose gold and white gold in a single setting is architectural in its precision.

A white diamond pavé shank completes the design — clean, refined, and brilliant from every angle.

Why This Ring Exists Once

Natural pink diamonds at any carat weight are among the rarest phenomena in the gem world. This particular cushion, in its soft Very Light Pink expression, paired with this specific arrangement of pink and white diamonds, exists as a singular composition — designed once, never repeated.

GIA certificate available. Private viewing by appointment.
